Information System Auditor with hands-on experience across banking operations, cybersecurity, and IT governance. Proven in conducting IS audits, VAPT, and control assessments for core banking, digital channels, and critical infrastructure. Strong capability in evaluating ITGC, application controls, access management, and regulatory compliance. Brings a rare blend of audit discipline and security engineering, enabling practical, risk-focused recommendations that strengthen control effectiveness and regulatory assurance.

Work Experience

Senior Officer (IS Audit)

City Bank PLC, Dhaka, Bangladesh | Full Time | Jan 2026 – Present | On Site

- Lead and execute risk-based information systems audits across central IT, CBS, branches, and business units.
- Plan, perform, and validate VAPT for critical applications, infrastructure, and network environments.
- Assess the design and operating effectiveness of IT General Controls (ITGC), application controls, and user access management, identifying control gaps and residual risks.
- Evaluate compliance with Bangladesh Bank ICT Guidelines, ISO 27001, and internal ICT security policies.
- Perform in special investigations, including technology-driven frauds, control breaches, and policy violations, by performing system analysis, log review, and evidence validation.
- Support incident response and post-incident control reviews, ensuring corrective actions are implemented.
- Coordinate with IT teams, business units, external auditors, and regulators, contributing clear, risk-based audit reports and remediation plans.

Advanced Security Engineer

ITCOM, Manila, Philippines | Full Time | Jun 2024 - Dec 2025 | On site

- Conduct vulnerability assessments and penetration testing to strengthen security posture.
- Perform threat detection, incident response, and malware analysis to mitigate cyber threats.
- Manage system hardening, secure configurations, and encryption (Fasoo).
- Ensure compliance with ISO 27001, NIST, and industry security standards through audits.
- Utilize SIEM, EDR, and intrusion detection tools for real-time monitoring.
- Develop and enforce cybersecurity policies to enhance enterprise security.

Assistant Manager (IT Audit and Consultancy)

ACNABIN Chartered Accountants, Dhaka | Full Time | Sept 2022 – Jun 2024 | On site

- Led IT security audits and risk assessments for major banks and corporations.
- Evaluated IT general controls, cybersecurity frameworks, and compliance standards.
- Conducted penetration testing and digital forensics for security investigations.
- Assessed database security, access controls, and network security policies.
- Provided recommendations to mitigate security vulnerabilities and improve resilience.

IT Audit Associate

ACNABIN Chartered Accountants, Dhaka | Internship | Mar 2022 – Sept 2022

- Assisted in IT risk assessments, audit planning, and compliance reviews.
- Conducted security evaluations for banking and corporate clients.

Major Certifications

- **Certified Information Systems Auditor (CISA)**

February 2025, through an examination administered by ISACA.

- **Certified Ethical Hacker (CEH)**

May 2021, through an examination administered by EC Council.

- **ISO/IEC 27001 Lead Auditor**

January 2025, through an examination administered by SMS Inc.

Additional Training & Certificates

- **Foundation Program on Banking**

In 2025, completed a 1-month training program.

- **Practical Ethical Hacking**

2024, completed and certified by TCM Security.

- **Practical Web Application Security and Testing**

2023, completed and certified by TCM Security.

- **SQL Injection Attack**

2025, Authorized By Ec-Council

- **Windows Forensics**

January 2021 Windows forensics authorized by the cybersecurity center

- **SQL Injection**

September 2020 Windows forensics authorized by the cybersecurity center

- **Software Architecture**

August 2021 University of Alberta through Coursera.

- **C3SA Premium Edition**

October 2023, authorized by CyberWar Fire Lab

- **CISA Training Program**

2024, Completed 40 hour training program from Sami Tech Ltd. BD

- **Secured 15th position in DIU Math Olympiad 2019**

Education

2022

Bachelor of Science (B.Sc.) in Software Engineering (Major in Cybersecurity)

Daffodil International University, Dhaka, Bangladesh.

CGPA: 3.23 out of 4

2017

Higher Secondary Certificate (HSC) in Science, Gaibandha Government College, Gaibandha.

GPA: 4.83 out of 5.00.

2015

Secondary School Certificate (SSC) in Science, Gaibandha Government Boys High School, Gaibandha.

GPA: 4.56 out of 5.00.

Projects

- ISO/IEC 27001 Compliance Checker- Python Based application.
<https://tinyurl.com/yc8hr77m>
- BDCTF — CTF platform to solve CTF challenges. This platform is created with HTML, CSS, BOOTSTRAP, AND PHP. <http://bdctf.unaux.com/>
- Restaurant Management System -- For academic course purpose developed a application using Java. This application usable for maintain order for a restaurant.
- Contact Management System -- Developed by C programming language.

Personal Skills

English Language – High proficiency. Fluent in speaking, competent in reading and writing.

X-Factors

Great Communicator: Excellent verbal and written communication skills Ability to explain complex technical concepts to non-technical stakeholders. Effective collaboration with cross-functional teams

Early Learner: Passion for learning and staying up to date with the latest trends and technologies. Proven track record of acquiring new skills quickly. Eager to take on new challenges.

Creative Thinking: Ability to approach challenges from multiple angles. Think outside the box to find innovative solutions.

Enthusiastic Researcher: Understanding the importance of staying informed about the latest threats Continuously research and stay up to date on new vulnerabilities and exploits. Use research to inform threat intelligence and mitigation strategies Enthusiastic Researcher

Technical Skills

- **Cybersecurity Audits & IT Governance:** ITGC, Security Audits, Threat Intelligence, Governance, Risk & Compliance (GRC), ISO 27001, COBIT, NIST, SOC 2 Compliance
- **Audit Scope Definition and Clarification:** Clearly defined the scope of security audits, including a detailed background of the systems, processes, and controls involved to ensure a comprehensive review.
- **Security Findings and Recommendations:** Provided actionable and concrete recommendations to address security gaps and improve the security, efficiency, and effectiveness of the audited systems and processes.
- **Vulnerability Assessment & Penetration Testing:** Web Application Security, Network Security, Vulnerability Assessment, Penetration Testing (Nessus, Burp Suite, Metasploit), Security Assessment and Exploitation of Network Infrastructures
- **Threat Detection & Incident Response:** Incident Response, Threat Detection, IDS/IPS, Endpoint Detection & Response, Security Information & Event Management
- **Malware Analysis & Digital Forensics:** Malware Analysis, Digital Forensics, System Hardening, Root Cause Analysis, Incident Reporting, Log Analysis and Forensic Imaging
- **Security Tools & Platforms:** SIEM, EDR , Nessus, Burp Suite, Metasploit, Wireshark, Kali Linux, Snort IDS/IPS, Carbon Black, Palo Alto Networks
- **Programming & Scripting:** Python, C, Java, PHP, SQL, Bash scripting, Security Automation, Developing Custom Security Tools
- **Access Control and Technical Audits:** Supported the technical implementation of ongoing security requirements, including access control policies and conducting technical audits to ensure compliance with security best practices.
- **Security Risk Assessment and Reporting:** Assessed and reported on security risks to the cybersecurity team, helping guide strategic patching decisions and improving overall system defenses.
- **Network Security & Infrastructure:** Firewall Configuration, VPN, Encryption (SSL/TLS), Network Monitoring, Wireless Security, Zero Trust Architecture
- **Security Automation & Orchestration:** Automating Vulnerability Scanning & Incident Response
